Subject Re: Quest

Just got this, will check on this. I know he has had some security issues in the last couple years that were of concern to us. One in particular was a guy who got into his outer office.

Subject: Quest

Did the flying Senator ever have a threat assessment done by Sp?

Have we ever documented death threats against him or received forwarded complaints or letters for action/analysis?

Their defense reminds me of Hevesi.

They claim he needs sp security because of death threats.
