Lobbyist Electronic Filings

****Lobbyist Electronic Filings Now Viewable Upon Submission****

This e-blast message is to serve as notice that starting today, April 9, 2015, all electronic lobbyist registration and bimonthly filings will be viewable on the Commission's Lobbying Online Filing System, and available to the public, immediately upon submission.

Previously, all such filings were posted only after administrative processing. While all filings remain subject to processing, information directly entered by lobbyists into the Online Filing System will now be made available to the public via the Commission's website while being processed by Commission staff.

In the coming weeks, client semi-annual reports and other lobbying filings will also be made public immediately upon submission.
